REASONS FOR ALLOWANCE

This is in response to amended filed on June 17, 2004. Claims 8, 9, 12, 13, 16, 20 and 21 have been amended. Claims 1-21 remain pending in this application.

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance: Applicants claim a method of maintaining coherency in a multi-processor bus computer system and a method of predicting a future snoop transaction comprising the acts of: "searching a posting queue for a posted writeback, the posted writeback having the corresponding second address, wherein the act of searching occurs simultaneously with respect to the act of snooping" [claims 1 and 8]. Applicants further claim "a coherency control module configured to snoop a bus for a first address while simultaneously searching a posting queue for a second address corresponding to a posted writeback" [claim 16]. The prior art of record do not teach or make obvious the claimed limitations. Hence, claims 1, 8 and 16 are allowed. Claims 2-7, 9-15 and 17-21 are also allowed for the same reasons with respect to claims 1, 8 and 16 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

New formal drawings are required in this application because informal drawings have been filed. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings.
